

**FREE EVENT**  
**Non-Members Welcome**

## **IMechE North West Automobile Division**

### **‘An Overview of Waste Heat Recovery’**

**Institution of  
MECHANICAL  
ENGINEERS**

**Speaker:** Phil Wild – Manager Advanced Engineering

This technical lecture looks at the subject of increasing overall thermal efficiency of internal combustion engines and the benefits of doing so. Increasing thermal efficiency has spread across all products from passenger cars to heavy duty trucks, from stationary power generation to marine propulsion.

For a more detailed agenda, please visit the IMechE North West Automobile Division website.

**Tuesday 9<sup>th</sup> September 2014 – 19:00 to 20:45**

(Refreshment available from 18:30)

Leyland Trucks  
Croston Road  
Leyland  
PR26 6LZ
