*"The NAA event at the 2015 Cholmondeley Pageant of Power was excellent; the presentations conveyed the enthusiasm of the members, the diversity of the companies, and the innovation of the SMEs. The fact that you could listen to the speakers, enjoy some valuable networking, and then watch cars racing around the circuit afterwards made it even better!"*  
**Simon Malins, University of Huddersfield**

*"This was my third NAA meeting and my first visit to the Cholmondeley Pageant. Even the "background music" during the presentations, provided by various revving racing machines, didn't seem to unduly distract the audience. Combining the regular monthly meetings at these interesting venues – Bentley, BAC etc.. – certainly encourages attendance of a range of delegates which is vital for those all-important networking opportunities. Well done"*
